

Dr. Debbie

I am so glad I was able to meet you. When I came I was tired all the time and could barely stay awake after 3pm even after a full night's sleep. Within 2 days I was able to stay awake til 7pm without any tiredness. During the last few months I have lost a brother, my mother has been diagnosed with an incurable disease and I have lost a friend from work. In addition there have been other stressful events. Through it all I have been healthy and able to weather these storms. I feel more energetic and have lost about 10 pounds. Thank you for your help and encouragement.
