

Dr. Debbie,

I want to thank you for all your help and guidance with my healing after my gall bladder surgery in dealing with my body not able to retain foods at all because of antibiotics wiping me out of my good bacteria. Also a huge thank you for your help in dealing with the mass in my throat found during the surgery when they put the tube down my throat. The mass was about the size of a quarter or a little larger and now it is the size of a pinhead. When you told me it was no accident how I came to you the first time we met, I knew before I came to "A Perfect 10" that God was sending me there, it was very obvious to me, no doubt in my mind, it was thru prayer. God has blessed me thru my healing and I truly believe He has blessed you with the knowledge to heal people. I feel the love and kindness from you and Michell at A Perfect 10.

Thank you from the heart,  
Regina Junk
