

What dose Debbie Beavers and The Perfect 10 stands for?

In 2008 when I was diagnose by my ear noise and throat Doctor as precancerous with throat cancer I decided to get a second opinion from Debbie. Debbie preformed her on diagnostic test and confirmed that there was a strong presence of cancer in my throat. Under Debbie's care we worked out a treatment plan of herbs, diet, and weekly treatment with the equipment in her office. My symptom began to subside in the first month and then over several more months completely went away. The presence of cancer became less and less until it was gone. Oh by the way the answer to what Debbie and the Perfect 10 stand for is Hope and Health!

It is now 2010 and I'm still symptom free. Thanks Debbie and God bless!

Roger Aubrey
