

Dear Debbie,

Thank you for being and very caring person and easy to talk to, when I came to your office. I have be going to a herbalist for over five years and I never had relief from pain in my joints, until I came to Perfect 10 seven months ago.

I went to my family doctor to be tested for lupus. He did two different blood tests and they came back positive, so my doctor wanted to send me to a rheumatology. I made my appointment and it was going to be four weeks before I went, so Debbie made me a homeopathic for lupus and when I went to the rheumatology, he did the same blood work that my family doctor did and they came back negative.

God Bless You,
Loren Dargatzis
